Jungle: Iteration 4

Team And Yet It Compiles

Laura South, Isaac Mauro, Brian Larson, Duck Keun Yang, Yan Wang

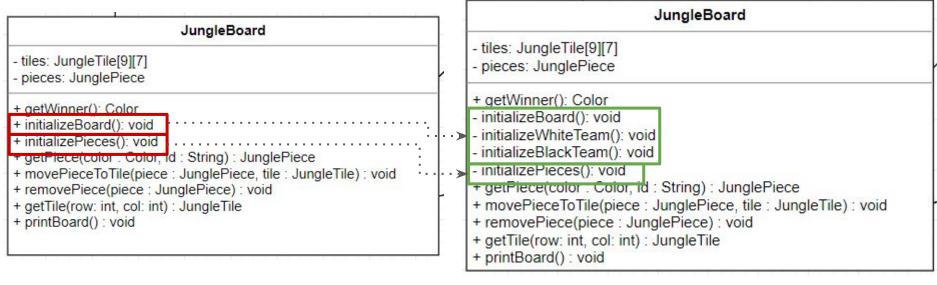

JungleGame Refactoring

JungleBoard Refactoring

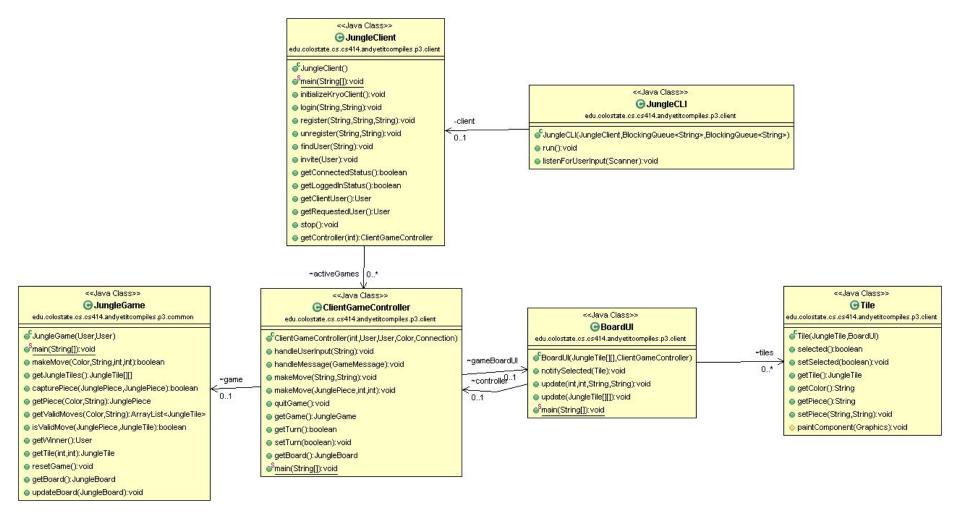

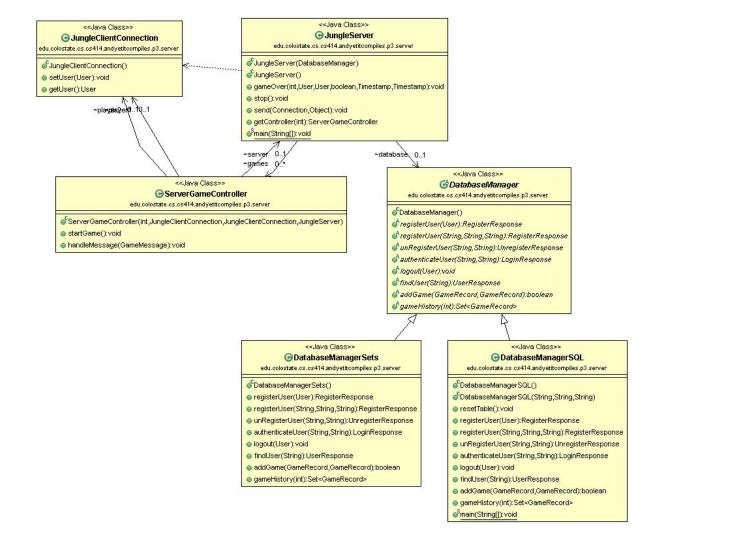

Previous Iteration

Current Iteration

Client Refactoring

- Mostly stayed the same, since we already had a MVC pattern implemented
- Replaced the crude console game board from the last demo with an interactive gui game board
- Having the MVC pattern already implemented made adding a new ui fairly easy
- The controller still plays a small part in creating the view and managing the model logic, which could be improved.

Traceability Link Matrix

	JungleClient	ClientGameCont	ti JungleGame	JungleBoard	JunglePiece	JungleTile	GameRecord	JungleServer	ServerGameCont DatabaseManager
Register	X							X	X
Unregister	X							X	X
